

# Unlock your business potential with trusted data.

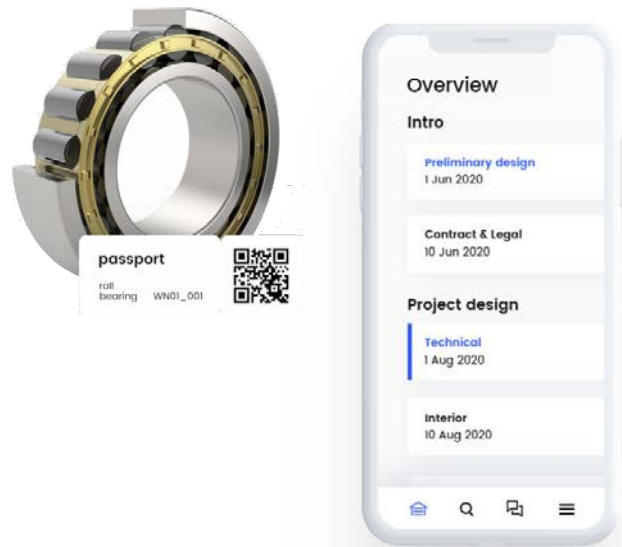

Simple  
Multi domain data sharing  
Built-in trust

## Problem

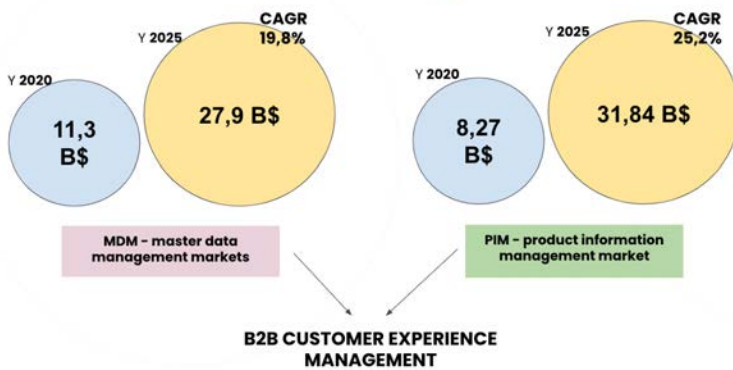

The way companies and manufacturers currently manage data is ineffective and unreliable. Just by fixing the data aspect of your business, you reduce costs and risks while increasing trust and productivity.

## Solution

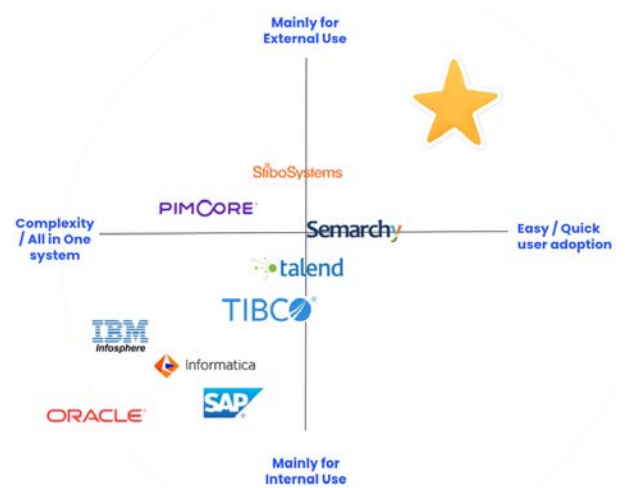

We gather all product data and documents at one place, provide Blockchain based data integrity, and build trusted business relationships. Sharing data with Authtrail is easy and provides high level of transparency.
